PocketSmart AI – Smart Budget and Recommendation AI

Valliammal College for Women | Department of BCA

Priya (Team Leader), Saira Banu, Harinishree, Pooja Shree, Lavanya

User says

“I have a budget, but I am not sure how to divide it or what choices fit my needs.”

User thinks

Wants clear recommendations, understandable costs and a plan that respects the stated budget.

User does

Enters preferences, budget and scenario details and reviews generated results.

User feels

May feel confused when many choices are available or when planning requires several separate tools.

Pain points

Manual comparison, scattered information, difficulty balancing priorities.

Needs

Simple input, budget-aware planning, personalized suggestions and clear output.
