Data Flow Diagram

PocketSmart AI – Smart Budget and Recommendation AI

Valliammal College for Women | Department of BCA

Priya (Team Leader), Saira Banu, Harinishree, Pooja Shree, Lavanya

Main flow

• User → Web Interface → Flask Application

• Flask Application → Planner/Route Logic → Gemini AI Service

• Gemini AI Service → Generated Plan → Flask Application

• Flask Application → Result Page / History

Data handled

The application processes user-provided planning information and generated results. API credentials are kept in environment configuration and are not intended for source-control publication.
