Project Executable Files

PocketSmart AI – Smart Budget and Recommendation AI

Valliammal College for Women | Department of BCA

Priya (Team Leader), Saira Banu, Harinishree, Pooja Shree, Lavanya

Included project files

The GitHub-ready development package contains the Python application entry point, routes, services, models, templates, static assets, requirements and test file.

Run

From the development phase folder, install the requirements and run the project using the provided Python/Flask entry point. Keep API credentials in a local environment file.

Repository safety

Secret environment files are excluded from the GitHub-ready structure.
